

ACHIEVING EXCELLENCE
IN FIXED DOSE COMBINATIONS
FOR SOFTGELS

MULTIPHASE DOSAGE FORM IN SOFTGEL™
unigel
by Procaps

INTRODUCING UNIGEL™ : A First to Market Technology

Combining softgels,
tablets or hard capsules within a single,
larger soft gelatin capsule is now possible.

Unigel™ (US Patent No. 8,967,989B2) is the only technique available for fixed dose combinations which incorporates the benefits of the soft gelatin capsule dosage form and takes it to the next level.

With Unigel™ , you can combine:

SOME OF THE APPLICATIONS OF UNIGEL™ INCLUDE:

Single or Multiple active ingredients with different release profiles

Sustained and immediate release sites

Multiple active ingredients with chemical incompatibility concerns

Multiple active ingredients where at least one is a liquid or a semisolid

Any combination of the above

With UNIGEL™ you can combine powerful ingredients in liquid and solid phase, all-in-one single dosage form.

Liquid Phase:

CLA, Omega-3, Vitamin E, Borage Oil (GLA), Evening Primrose Oil, Argan Oil, Olive Oil, Avocado Oil, Chia oil, Flaxseed oil, Coconut oil; Among Other Oils

Solid Phase:

Vitamins, Minerals, Supplements, Alpha lipoic Acid, Aminoacids, Caffeine, CoQ10, Hyaluronic Acid, Biotin, Collagen, Botanical Extracts, plus much more.

Benefits of Unigel™ for *the consumer*

Impossible to counterfeit

Faster action and absorption

Easy and comfortable swallowing

Easier than taking two or more different products

Reduces medication error and the number of prescriptions to take per day

Improves consumer experience by masking taste and unpleasant odors

Benefits of Unigel™ for *the brand*

Consumers prefer and perceive softgels to be faster acting than other dosage forms

Innovation in diverse shapes, sizes and colors for brand and product differentiation

Pleasing appearance, pharmaceutical elegance and uniqueness

Strengthens your brand while also increasing revenue

Benefits of Unigel™ for *the product*

Exact dosing

Improved bioavailability of poorly soluble and poor permeability drugs

Avoids degradation by oxygen due to hermetic sealing

Improves the risk-benefit relationship (greater effect than drugs separately, without major side effects)

Highlights on Unigel™ technology

- *First to market technology*
- *Patent protected technology developed by Procaps that guarantees long lasting competitive differentiation for brand line extensions*

Plus:

- *Extensive formulation development and manufacturing experience*
- *High-quality manufacturing facility*
